

18-Port Fiber Optical Patch Panels (1U)

18-Port Fiber Optical Patch Panels (1U)

Packing: 1 pc per inner carton

Model NO.: FPD01-A

Standard: UL, DELTA, RoHs certificated and list

Trademark: SGT Canada

Product Description

√ 18-Port Fiber Optical Patch Panels (1U)

We manufacture wide range of distribution panels and boxes which allows for fast and economical installation of fiber systems . It has the function of splicing, distribution, administration, protection and storage for fiber cables. With our high quality materials and elegant design, it makes our products extra valuable to buyers.

To effectively manage optical fiber termination and splices, we provide a termination solution for LAN applications requiring fully enclosed and lockable wall mount enclosures. These units are equipped with cable management reels and cable routing accessories to limit bend radius and add strain relief control.

Features and benefits

- Wall mount and 19-inch rack mount for ST, SC, LC, MTRJ, FC, APC coupler and adapter
- The drawer is the holding board for splicing; the position can be adjusted according to the holes on the board
- Aluminum sliding fittings with self-locking functions prevent the drawer from falling when moved; flexible and convenient usage
- The cover can be opened and component put in easily
- All the internal and outer cables can enter the panel via fixed fittings so that the pigtailed can work there strongly
- With wide working space, easy to withdraw the fiber when testing and distributing
